## Office Action Summary

**Application No.**

10/538,395

**Applicant(s)**

LIN ET AL.

**Examiner**

Yevgeny Valenrod

**Art Unit**

1621

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 1-21 and 28-38 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_ is/are allowed.
- 6) ☐ Claim(s) \_\_\_\_ is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_ is/are objected to.
- 8) ☒ Claim(s) 1-21 and 28-38 are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
  - ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_.
  - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- \* See the attached detailed Office action for a list of the certified copies not received.

**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14, 21, 28-31, 37-38, drawn to a compound of formula (I) where R<sup>5</sup> is attached to the amide group by a Carbon atom and R<sup>6</sup> is alkyl, alkenyl, alkynyl, halogen or CN.

Group II, claim(s) 1-14, 21, 28-31, 37-38, drawn to a compound of formula (I) where R<sup>5</sup> is attached to the amide group by an Oxygen atom and R<sup>6</sup> is alkyl, alkenyl, alkynyl, halogen or CN.

Group III, claim(s) 1-14, 21, 28-31, 37-38, drawn to a compound of formula (I) where R<sup>5</sup> is attached to the amide group by a Sulfur atom.

Group IV, claim(s) 1-14, 21, 28-31, 37-38, drawn to a compound of formula (I) where R<sup>5</sup> is attached to the amide group by a Nitrogen atom and R<sup>6</sup> is alkyl, alkenyl, alkynyl, halogen or CN.

Art Unit: 1621

Group V, claim(s) 1-14, 21, 28-31, 37-38, drawn to a compound of formula (I) where  $R^5$  is attached to the amide group by a Carbon atom and  $R^6$  is  $-OR^d$  or  $-NR^dR^c$ .

Group VI, claim(s) 1-14, 21, 28-31, 37-38, drawn to a compound of formula (I) where  $R^5$  is attached to the amide group by an Oxygen atom and  $R^6$  is  $-OR^d$  or  $-NR^dR^c$ .

Group VII, claim(s) 1-14, 21, 28-31, 37-38, drawn to a compound of formula (I) where  $R^5$  is attached to the amide group by a Nitrogen atom and  $R^6$  is  $-OR^d$  or  $-NR^dR^c$ .

Group VIII, claim(s) 15-20 and 32-36 (in part), drawn to a method of treating a disease using the compound of group I.

Group IX, claim(s) 15-20 and 32-36 (in part), drawn to a method of treating a disease using the compound of group II.

Group X, claim(s) 15-20 and 32-36 (in part), drawn to a method of treating a disease using the compound of group III.

Group XI, claim(s) 15-20 and 32-36 (in part), drawn to a method of treating a disease using the compound of group IV.

Art Unit: 1621

Group XII, claim(s) 15-20 and 32-36 (in part), drawn to a method of treating a disease using the compound of group V.

Group XIII, claim(s) 15-20 and 32-36 (in part), drawn to a method of treating a disease using the compound of group VI.

Group XIV, claim(s) 15-20 and 32-36 (in part), drawn to a method of treating a disease using the compound of group VII.

The inventions listed as Groups I - XIV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the corresponding technical feature between the inventions is the core structure of the compound of formula I. The said core structure comprises an amide and an N-ethyl substituent. The N-ethyl substituent is  $\beta$ -substituted by two aryl groups, or two heteroaryl groups, or one aryl the other heteroaryl groups. The corresponding technical feature based on the core structure of the compound of formula (I) does not constitute a special technical feature which makes over the prior art. The said core structure has been disclosed by Canonica et al. (*Gazzetta Chimica Italiana*, **1954**, 84 175-86. See attached CA PLUS printout).

Art Unit: 1621

The examiner has required restriction between product and process claims.

Where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder.

All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product are found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowable product claim will not be rejoined. See MPEP § 821.04(b). Additionally, in order to retain the right to rejoinder in accordance with the above policy, applicant is advised that the process claims should be amended during prosecution to require the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.** Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.

Art Unit: 1621

A telephone call was made to Catherine Fitch on 12/05/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

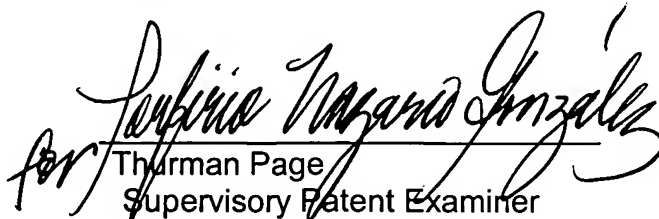

Art Unit: 1621

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yevgeny Valenrod whose telephone number is 571-272-9049. The examiner can normally be reached on 8:30am-5:00pm M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page can be reached on 571-272-0602. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
